## DG MESSAGE

अभय बाकरे  
महानिदेशक, बीईई

**Abhay Bakre**  
Director General, BEE

Dear Friends,

On December 14th each year, India commemorates National Energy Conservation Day to underscore the critical importance of sustainable energy practices. The Bureau of Energy Efficiency (BEE), guided by the Ministry of Power, recognizes exemplary efforts in reducing energy consumption through the National Energy Conservation Awards (NECA), urging entities to intensify their focus on energy efficiency.

In a recent high-level workshop in Delhi, key members of SEforALL, AEEE, and IEA converged to discuss the 'Voluntary Action Plan on Doubling the Rate of Energy Efficiency Improvement by 2030.' Notably, the workshop produced a report titled 'Promoting Energy Efficient Lifestyles and Decision-Making,' featuring global case studies on behavioral incentives driving energy-efficient actions. This report not only enriches global knowledge but also guides future initiatives in India.

The collaboration with World Bank was further emphasized in a meeting between BEE officials and World Bank energy experts. Updates on the World Bank India Industrial Decarbonization Program and the India Decarbonization Financing Facility were discussed, showcasing a commitment to global energy efficiency progress.

The BEE-Indo-German Energy Programme Partnership Summit in Srinagar brought together state-level representatives to strategize for effective energy conservation. This collaborative spirit extended with the launch of the 'Standard and Labelling Program' for solar photovoltaic modules by Hon'ble Minister for Power and New & Renewable Energy Shri R. K. Singh. This program aims to enhance transparency and efficiency in the solar industry, empowering consumers to make informed choices.

Additionally, Shri R. K. Singh inaugurated the National Efficient Cooking Programme (NECP) and Energy Efficient Fans Programme (EEFP), contributing significantly to India's carbon mitigation goals. These initiatives collectively signify a substantial leap towards energy efficiency, demonstrating the BEE's unwavering commitment to steering India towards a greener and more energy-efficient future.

## SECRETARY MESSAGE

I am thrilled to share the remarkable progress and achievements of the Bureau of Energy Efficiency (BEE) as we actively contribute to India's energy transition. In our commitment to fostering energy efficiency, several milestones have been reached, exemplifying our dedication to a sustainable and prosperous future.

One noteworthy accomplishment are the Stakeholder Consultant Workshop on the Indian Carbon Market, Star Rating for washing machines and Solar PV Module under the voluntary regime of S&L program along with the implementation of projects for two Delhi-based DISCOMs, National Partnership Summit 2023 and Investment Bazaars.

National Dissemination Workshops for the Leather and Food Processing Sectors were organized. The state-level energy efficiency initiatives were assessed and monitored through the State Energy Index 2023. The launch of the State Energy Efficiency Action Plan further solidifies our strategic initiatives in propelling energy efficiency across the nation.

I am delighted to announce that on National Energy Conservation Day, 26 school children were felicitated who came out as the winners of the National Painting Competition against the huge participation of more than 70 Lacs students from 98,000 schools. In addition to these 63 prizes and 27 Certificate of Merits were awarded by the Hon'ble President of India to the best performing Industrial Units.

During this period, Bureau participated in key govt. initiatives such as 'Hindi Pakhwada', 'Swachh Diwali', 'Vigilance Awareness Week' and 'EV Yatra'.

I am sure together we will continue to champion energy efficiency, propelling India towards a sustainable and prosperous future.

**मिलिंद देवरे**

सचिव, बीईई

**Milind Deore**

Secretary, BEE

## NECA 2023: Celebrating Achievements and Driving Change

Hon'ble President on Dias

The spirit of National Energy Conservation Day 2023 resonated powerfully as leaders, stakeholders, and young talents gathered to champion India's sustainable future. Hon'ble President, through the National Award, commended organizations efforts, highlighting the indispensable role of energy efficiency in fostering a greener economy.

The Hon'ble Cabinet Minister of Power and New and Renewable Energy, Shri R K Singh, emphasized India's pivotal role in global

climate change mitigation and reiterated the nation's commitment to the ambitious "Panchamrit Goals." Despite India's 17% global population share, its commendable 4% contribution to carbon emissions reflects a dedication to carbon mitigation.

NECA ( National Energy Conservation Awards) recognized outstanding performers, while the NEEIA(National Energy Efficiency Innovation Award) celebrated innovators across Industry, Building and Transport categories. Along with NECA and NEEIA, prizes were also distributed to the National Painting Competition on Energy Conservation winners. National Painting Competition on Energy conservation is organized every year for the students of class 5th -10th. DG, BEE announced a scientific tour to ISRO for winners of painting competitions, fostering scientific curiosity.

NECA 2023 spotlighted ground-breaking innovations, categorizing professionals and students based on criteria like Explicability, Affordability, and Reliability. These initiatives aim to shape a future where energy efficiency and conservation resonate at the heart of every individual, paving the way for a sustainable and greener planet.

In conclusion, the Bureau of Energy Efficiency, under the Ministry of Power, remains steadfast in its mission. Through initiatives like NECA and NEEIA, they envision a future where energy efficiency and conservation are integral, reflecting a commitment to sustainability and a greener planet.

Hon'ble President facilitating the school children

## National Energy Conservation Day 2023: A Pivotal Moment for Energy Efficiency

Vigyan Bhawan during NECA session

On December 14, 2023, the esteemed occasion of National Energy Conservation Day was graced by the presence of the President of India, Smt. Droupadi Murmu, in New Delhi. She bestowed the National Energy Conservation Awards 2023 and National Painting Competition on Energy Conservation prizes. In her address, the President emphasized that our collective well-being hinges on the conservation and vitality of nature. Optimal resource utilization can meet everyone's energy requirements without imposing undue

strain on our environment. She championed the cause of energy efficiency and innovation, stressing that energy conservation equates to energy production. This message resonates profoundly as we endeavour to disseminate its importance.

Highlighting the imperative of the 21st century, the President urged global communities to amplify energy efficiency while augmenting renewable energy utilization. She underscored India's commitment to fostering clean energy, citing advancements in clean coal technologies and our commendable rise from 30th to 7th place in the Climate Change Performance Index over a decade. Furthermore, initiatives such as the 'Green Energy Open Access Rules, 2022,' and Renewable Purchase Obligations are pivotal in realizing India's Nationally Determined Contributions for 2030. The introduction of "Green credit," aligned with 'LiFE' (Lifestyle for Environment), signifies India's dedication to integrating environmental consciousness with traditional practices. Annually commemorated on December 14, National Energy Conservation Day underscores the nation's strides in energy efficiency and conservation.

Children's paintings on exhibition

The Bureau of Energy Efficiency (BEE) remains at the forefront, executing diverse schemes like the Standards and Labelling (S&L) Programme, Perform, Achieve, and Trade (PAT) for Designated Consumers, and Demand Side Management (DSM) initiatives across sectors. Additionally, BEE diligently drives the National Mission for Enhanced Energy Efficiency (NMEEE), a pivotal mission under the National Action Plan on Climate Change (NAPCC) helmed by the Hon'ble Prime Minister of India. In conclusion, as we reflect on this significant day, let us renew our commitment to fostering a sustainable, energy-efficient future for India, guided by innovation, collaboration, and unwavering dedication to our environment.

## Union Minister R. K. Singh Announces Star Labelling for Solar Panels, Emphasizes Quality and Energy Efficiency Goals

Launching of Standards and Labeling Program for Solar Panels by Shri R K Singh

The Indian government has introduced a pioneering Standards and Labelling Programme for solar panels, marking a significant step towards promoting energy efficiency and empowering consumers. Launched in New Delhi on October 20, 2023, by the Union Minister for Power and New and Renewable Energy, Shri R. K. Singh, this initiative aims to guide citizens in making well-informed decisions when purchasing solar photovoltaic modules, commonly known as solar panels. Operated by the Bureau of Energy Efficiency (BEE), the star labelling scheme is set to be effective from January 1, 2024, until December 31, 2025.

Remarkably, during this period, labelling fee will be waived off for 4 & 5 Star Rated Solar PV Modules. This move is anticipated to bridge the information gap, enabling consumers to gauge the efficiency and cost-effectiveness of solar panels accurately. The programme's core objective aligns with the government's broader vision of bolstering renewable energy adoption while curbing the emission intensity of GDP by 45% by 2030.

Shri R. K. Singh emphasized the transformative impact of the Standards & Labelling Programme, highlighting its potential to foster a more transparent marketplace. He pointed out that prior to this initiative; consumers were largely dependent on installers' recommendations, often without concrete evidence of a product's efficiency. Now, with the Standards & Labelling system, individuals can discern which brands offer superior performance, thus fostering healthy competition within the industry. Furthermore, Shri Singh elucidated the environmental implications of this initiative, projecting a reduction in carbon dioxide emissions by a staggering 30 million tonnes annually by 2030.

The Hon'ble Power Minister chaired the meeting

He fervently called upon solar panel manufacturers to voluntarily register under the Standards & Labelling programme, emphasizing its imminent transition from voluntary to mandatory after an initial two-year period.

In a bold move towards self-reliance, the Union Minister articulated the government's ambition to ensure that solar PV modules are entirely "Made in India" within a few years. This

commitment extends to manufacturing PV cells domestically, followed by the production of wafers, ensuring the highest quality standards.

Shri Singh reiterated India's aspiration for excellence, asserting that out-dated or less efficient panels would gradually be phased out, aligning with the Approved List of Models and Manufacturers. Echoing these sentiments, Union Power Secretary Shri Pankaj Agarwal underscored the programme's role in empowering consumers. He emphasized the necessity of informed choices, especially as the government envisions a significant expansion of solar rooftops, necessitating the active participation of ordinary citizens.

Director General of BEE, Shri Abhay Bakre, shed light on the programme's anticipated impact on the solar energy landscape. He projected an exponential growth, with an additional 200 GW of solar panels expected by 2030. Moreover, he highlighted the potential enhancements in Solar PV module efficiency, estimating a 2% improvement over current levels. This progress could yield a substantial increase in electricity generation, significantly mitigating CO2 emissions. In summary, India's Standards & Labelling Programme for solar panels heralds a new era of energy efficiency and consumer empowerment. By fostering transparency, promoting domestic manufacturing, and aligning with global sustainability goals, this initiative epitomizes India's commitment to a greener, more sustainable future.

Curtain Raiser

## ‘फिट इंडिया फ्रीडम रन’ के साथ राष्ट्रव्यापी स्वच्छ भारत अभियान

‘स्वच्छ भारत, स्वस्थ भारत’ के संदेश के साथ ‘फिट इंडिया फ्रीडम रन’

### स्वच्छे देहे स्वच्छचित्तं, स्वच्छचित्ते स्वच्छज्ञानम्। स्वच्छज्ञानात् स्वच्छजीवनम्, स्वच्छजीवने सुखम्॥

स्वच्छता से शरीर और मन दोनों स्वस्थ होते हैं। स्वस्थ शरीर में स्वस्थ मन होता है, और स्वस्थ मन से ही सुखी जीवन जीया जा सकता है। स्वच्छता और अच्छे स्वास्थ्य के बीच गहरा संबंध है। स्वस्थ जीवन शैली में स्वच्छता के महत्व को ध्यान में रखते हुए फिट इंडिया फ्रीडम रन इस वर्ष ‘स्वच्छ भारत, स्वस्थ भारत’ थीम के साथ फिट इंडिया स्वच्छता फ्रीडम रन 4.0 के रूप में देश भर में आयोजित किया गया।

फिट इंडिया फ्रीडम रन 4.0— ‘स्वच्छ भारत, स्वस्थ भारत’ अभियान के अंतर्गत, ऊर्जा दक्षता ब्यूरो मुख्यालय में 2 से 3 किलोमीटर का ‘फिट इंडिया वॉक’ का आयोजन किया गया, जिसमें बीईई के सभी अधिकारियों तथा कर्मचारियों ने हिस्सा लिया। इस अवसर पर बीईई के महानिदेशक श्री अभय बाकरे ने अपने संबोधन में सभी को स्वच्छता और स्वस्थ जीवन के महत्व के बारे में जागरूक किया। उन्होंने कहा कि स्वच्छता और स्वास्थ्य का हमेशा से ही गहरा नाता रहा है। जहाँ पर स्वच्छता होगी वहीं पर अच्छा स्वास्थ्य होगा। हमारे वातावरण का हमारे स्वास्थ्य पर बहुत प्रभाव पड़ता है। यदि हमारा वातावरण स्वच्छ होगा तो हमारा स्वास्थ्य स्वस्थ रहेगा और यदि वातावरण दूषित होगा तो उसके हमारे स्वास्थ्य पर नकारात्मक प्रभाव पड़ेंगे। साफ़ सफाई चाहे फिर वह शरीर की हो या फिर घर की या फिर कार्यलय की स्वास्थ्य पर बहुत ही सकारात्मक प्रभाव डालती है। साथ ही उन्होंने इस ‘फिट इंडिया फ्रीडम वॉक’ के साथ ‘प्लॉगिंग’ या ‘प्लॉग रन’ जैसी

'स्वच्छता और स्वस्थ' के मंत्र पर आधिरित दौड़

अनूठी गतिविधि के विषय पर भी प्रकाश डाला जो फिटनेस और स्वच्छता को जोड़ती है। इसमें प्रतिभागी स्वच्छता और स्वास्थ्य को बढ़ावा देने के लिए दौड़ने (जॉगिंग) के दौरान कूड़े को भी इकट्ठा करते हैं और उसका निस्तारण करते हैं। इससे जॉगिंग और क्लीनिंग दोनों एक साथ कर एक पंत दो काज करने की अनूठी विधि है। साथ ही, उन्होंने मिलेट्स (सांवा, कोदो, रागी, कुट्टु, काकुन, ज्वार, बाजरा और चीना) जैसे पौष्टिक तत्वों को अपने आहार में शामिल करने पर जोर दिया और फिट इंडिया में अपना योगदान देने के लिए प्रेरित किया। प्रधानमंत्री नरेंद्र मोदी की कोशिश के बाद संयुक्त राष्ट्र संघ ने 2023 को अंतरराष्ट्रीय मिलेट्स या मोटा अनाज वर्ष घोषित किया। इस साल केंद्र सरकार ने मोटे अनाज की खेती को प्रोत्साहित करने के लिए कई तरह के कार्यक्रम आयोजित किए।

भारत सरकार के युवा कार्यक्रम एवं खेल मंत्रालय ने हाल ही में फिट इंडिया फ्रीडम रन का चौथा संस्करण आरम्भ किया था, जिसे 'स्वच्छ भारत- स्वस्थ भारत' कथ्य के साथ 'फिट इंडिया स्वच्छता फ्रीडम रन 4.0' से पुनर्नामित किया गया है, एक महीने तक चलने वाला यह अभियान 1 अक्टूबर से प्रारंभ होकर 31 अक्टूबर, 2023 को यूनिटी रन के साथ समाप्त हुआ। इस दौड़ का उद्देश्य बेहतर स्वास्थ्य और फिटनेस के लिए चलने या दौड़ने की आदत को विकसित करना है और यह महत्वपूर्ण स्थलों पर प्रस्तावित था। फिट इंडिया मिशन 2019 में लांच किया गया था। इसमें फिटनेस को हमारे दैनिक जीवन का अभिन्न अंग बनाने, व्यवहार में बदलाव लाने और शारीरिक रूप से अधिक सक्रिय जीवनशैली की ओर बढ़ने और फिटनेस पर जागरुकता को बढ़ावा देने की परिकल्पना की गयी थी। इस साल के आखिरी रेडियो प्रोग्राम 'मन की बात' कार्यक्रम में प्रधानमंत्री नरेंद्र मोदी ने देश को संबोधित करते हुए विशेषकर फिट इंडिया अभियान पर चर्चा की। अपने इस कार्यक्रम में श्री मोदी जी ने फिट इंडिया, फिजिकल हेल्थ, मेंटल हेल्थ के साथ न्यूट्रिशन को लेकर खूब चर्चा की।

'फिट इंडिया वॉक' में बीईई प्रतिभागी

## October Highlights

### बीईई कार्यालय परिसर में स्वच्छता अभियान

ऊर्जा दक्षता ब्यूरो के कार्यालय परिसर में 1 अक्टूबर को 'स्वच्छता ही सेवा' की थीम पर आधिरित स्वच्छता अभियान आयोजन किया गया। बीईई के महानिदेशक श्री अभय बाकरे के नेतृत्व में सभी अधिकारियों और कर्मचारियों ने अभियान में बढ़चढ़ कर भाग लिया। इस अवसर पर श्री बाकरे ने कहा कि स्वच्छता के लिए किया जा रहा यह प्रयास, स्वच्छ भारत के बेहतर भविष्य की ओर संकेत करता है। ये केवल एक दिन का नहीं बल्कि हर दिन स्वच्छता का स्वभाव बनाने पर आह्वान किया।

स्वच्छता अभियान में बीईई का आह्वान

बीईई कार्यालय परिसर में स्वच्छता अभियान

## Delhi Workshop Pushes for Global Energy Efficiency Goals by 2030

In Delhi, a workshop highlighted the 'Voluntary Action Plan to Double Energy Efficiency Improvement by 2030', graced by Shri Abhay Bakre, DG, BEE, alongside members of SEforALL, AEEE, and IEA. The event emphasized the crucial role of energy efficiency in both national and global decarbonisation endeavours. Participants engaged in discussions about propelling international energy efficiency efforts and leveraging significant opportunities in India through shared insights. Furthermore, attendees witnessed the launch of a report titled 'Promoting Energy Efficient Lifestyles and Decision-Making'. This publication features case studies from G20 countries, emphasizing the behavioural and emotion-driven factors that encourage energy-saving initiatives on a global scale. commitment to a greener, more sustainable future.

Officials during the workshop of Voluntary Action Plan

## BEE Workshop Enhances Energy Efficiency Surveillance

On October 12, BEE organized a workshop dedicated to Market Surveillance Activity under the Standards and Labeling (S&L) Program. The session emphasized grasping the surveillance guidelines and testing protocols for devices within BEE's S&L framework. Six SDAs from the western region shared their insights and obstacles faced while implementing energy efficiency criteria, providing essential feedback for enhancing the program. The gathering facilitated detailed dialogues about integrating surveillance standards with testing methods to maintain energy efficiency standards. Moreover, the workshop led to the creation of a task force committed to executing the action plan formulated during the meeting.

Discussion in progress

## BEE Presents Energy Transition Paper at 26th ETM in Delhi

At the 26th Energy Technology Meet (ETM) for Petroleum Refineries, the Bureau of Energy Efficiency presented a paper titled "Energy Transition in India." This significant gathering took place from 9-11 October 2023 at the International Exhibition Cum Convention Centre (IECC) in Pragati Maidan, New Delhi. The event commenced with an inauguration by the Hon'ble Minister of Petroleum and Natural Gas, Shri Hardeep Singh Puri, on 9th October 2023.

Hon'ble Minister of Petroleum & Natural Gas, Shri Hardeep Singh Puri addressing the gathering

Secretary (BEE) addressing the event

Visitors in BEE stall at 26th Energy Technology Meet

## BEE & World Bank Collaborate on India's Decarbonisation Initiatives

BEE officials and energy experts from the World Bank convened for a crucial inaugural meeting chaired by Shri Abhay Bakre, the Director-General of BEE. The dialogue centered on advancements within the World Bank's India Industrial Decarbonization Program (IIDP) and fostering stronger ties with BEE. The meeting's agenda featured updates on technical guidance in areas such as energy efficiency, industrial decarbonization, efficient cooling, and sustainable steel production. Moreover, discussions also touched upon shaping the framework for the forthcoming joint venture, the India Decarbonisation Financing Facility between BEE and the World Bank.

Shri Abhay Bakre, Director-General (BEE) sharing thoughts for De-carbonisation Industry

## BEE & PMAs Collaborate on 5-Star Transformer Efficiency in DISCOMs

The Bureau of Energy Efficiency (BEE) and Project Management Agencies (PMAs) formalized their collaboration through a contract signing ceremony at the BEE office in New Delhi. This agreement paves the way for a comprehensive study aimed at replacing inefficient Distribution Transformers (DT) with BEE's top-rated 5-star energy-efficient transformers. The initiative targets selected DISCOMs as part of BEE's "DISCOMs Capacity Building" program, emphasizing enhanced energy efficiency across the distribution network.

Secretary BEE along with the esteemed representatives

## BEE-Indo-German Summit in Srinagar Highlights Energy Collaboration

The two-day BEE-Indo-German Energy Programme Partnership Summit for State Designated Agencies commenced in Srinagar, Jammu & Kashmir. Inaugurated by Shri Abhay Bakre, the Director-General of BEE, the event also featured esteemed figures like Shri Baseer UI Haq, IAS, MD of KPDCL, and Sh. Raman Kesar, Secretary of Power for J&K. The summit convened representatives from 29 State Designated Agencies along with key BEE officials, highlighting collaborative efforts and discussions on energy initiatives.

Group photo of the state representatives

## BEE and EMC's Palakkad Summit Highlights Energy Efficiency Financing and Key Projects.

On October 17, 2023, the Bureau of Energy Efficiency (BEE) and the Energy Management Centre (EMC) hosted the "Investment Bazaar for Energy Efficiency Financing" in Palakkad, Kerala. Directed by Dr. R. Harikumar and inaugurated by Minister K. Krishnankutty, the event gathered industry stakeholders, including FICCI's P.M. Raveendran and A. Prabhakaran, MLA. Two

Minister K. Krishnankutty addressing the event

technical sessions showcased insights from industries and financial institutions on energy efficiency initiatives. Notable attendees spanned BEE members, SIDBI, Bank of Baroda, KFC, and Tata Power. With over 100 delegates present, the conference spotlighted five significant bankable energy efficiency projects, emphasising collaborative advancement in sustainable financing.

## November Highlights

### Shri R K Singh unveils NECP and EEFP, emphasising clean cooking and solar efficiency

Shri R K Singh introduced the National Efficient Cooking Programme (NECP) and Energy Efficient Fans Programme (EEFP) at the Indian Habitat Centre, New Delhi, on 2nd Nov 2023. DG Shri Abhay Bakre stressed NECP's role in promoting clean Electric Cooking and aiding India's carbon goals. Meanwhile, Secretary Shri Pankaj Agarwal spotlighted the new Star Labelling initiative for Solar PVs, underscoring strides in energy efficiency.

The Hon'ble Power Minister launches the program

### Successful Turnout at '9th Vibrant India Exhibition

The '9th Vibrant India - 2023' Exhibition at Dilli Haat, New Delhi, showcased the bustling BEE pavilion at stall No G-36-37. Industry experts, delegates, and the public engaged with diverse offerings. Continuing till November 5, attendees explore schemes and measures for Energy Efficiency, emphasizing themes of Energy, Energy Savings, and Energy conservation.

Visitors at the '9th Vibrant India Exhibition

### Capacity Building Program Highlights Energy Efficiency Across Key Industrial Sectors

On 8th and 9th November, a Capacity Building Program at UTPRERAK Badarpur enlightened newly appointed Project Engineers and Sector Experts on the PAT scheme, government policies, and Energy Efficient technologies across sectors like Cement, Iron & Steel, Pulp & Paper, Textile, and Chlor-Alkali.

BEE's DDG and Director at the event

BEE Project engineers and sector experts, along with officials

## Shri R K Singh Inaugurates 'Power Pavilion' at IITF 2023, Spotlighting Energy Initiatives

Hon'ble Minister inaugurating the pavilion

BEE Stall at the 'Power Pavilion' in IITF 2023

Shri R K Singh, Minister of Power and New & Renewable Energy, inaugurates the 'Power Pavilion' at the 42nd India International Trade Fair in Pragati Maidan, New Delhi. The event highlighted key ministry initiatives, with Secretary Pankaj Agarwal and CPSEs' CMDs in attendance, emphasising public engagement for a brighter energy future.

The Honorable Power Minister, along with officials

## National Workshop: Mapping Energy & Resources in India's Leather Sector

A national dissemination workshop on 'Energy and Resource Mapping of MSME Clusters in the Leather Sector' organized at Chennai on November 22, 2023. Participating organizations included Senior official from BEE, CLE, CLRI-CSIR, MSME DFO Chennai. The workshop focused on sharing outcomes from the study in the Leather Sector, aiming for feedback and policy recommendations for the improvement of the sector in India. BEE presented major activities, covering Inception Work,

Participants in the workshop

Approach & Methodology, Cluster Identification, and also recommendation of Energy Conservation Measures.

## BEE's National Workshop Maps Energy in India's Food MSME Clusters

The Bureau of Energy Efficiency conducted a National Dissemination Workshop in November 2023, focusing on the "Energy and Resource Mapping of MSME Clusters in India for the Food Processing Sector." This initiative aimed to assess the current state of MSME clusters in the food processing sector nationwide. The study focused on understanding energy consumption, existing processes, technology vintage, and the clusters' readiness to adopt energy-efficient solutions.

Workshop on 'Mapping Energy & Resources' in the Leather Sector

## December Highlights

### BEE and GIZ Host Workshop on District Cooling in New Delhi

BEE and GIZ host a workshop in New Delhi on District Cooling, supported by the PMU for the project led by AEEE and KPMG, India. The event emphasized collaboration and featured key stakeholders from MoUHA, GIZ, AEEE, UNEP, Tabreed, and more. The workshop, part of Energy Conservation Day activities, included insights from leaders like Abhay Bakre, Director General of BEE, and representatives from AEEE and GIZ.

BEE, DG Shri Ajay Bakre & Representatives

### Karnataka secured 1st Prize in State Energy Efficiency Performance Award in Group 1 for the third consecutive time

On the occasion of National Energy Conservation Day on 14th December 2023, the President of India Smt. Droupadi Murmu felicitated the winners of the National Energy Conservation Awards 2023, National Energy Efficiency Innovation Awards 2023 and National Painting Competition on Energy Conservation 2023.

On behalf of Karnataka state, Shri K. P. Rudrappaiah, Managing Director, KREDL received the award.

Shri K P Rudrappaiah, MD, KREDL receiving the Award

### Energising eCooking: Workshop Emphasizes SDAs' Rural Impact

In collaboration with the Modern Energy Cooking Services (MECS) program, a workshop on "Engaging States to Scale-up eCooking" took place on December 12, 2023, at India Habitat Centre in New Delhi. The session focussed on strategizing the expansion of eCooking, discussing devices like Induction Cookstoves, Electric Pressure Cookers, Rice Cookers, and On/Off-grid Solar Cooking solutions. Secretary

Secretary(BEE) with Dignitaries

Shri Milind Deore, from BEE, emphasized the crucial role of State Designated Agencies (SDAs) in promoting electric cooking, citing initiatives such as demonstration projects and the "GoElectric" campaign in rural areas.

## BEE and KREDL Host Energy Efficiency Financing Event in Bangalore

BEE and KREDL, in partnership, organize an 'Investment Bazaar for Energy Efficiency Financing' in Bangalore on December 16, 2023. The event saw inauguration by Shri K.P. Rudrappaiah of KREDL, drawing participation from industries, banks, financial institutions, and various energy sector stakeholders.

Shri K.P. Rudrappaiah of KREDL addressing the event

## BEE Initiates Sustainable Energy Practices in Textile MSMEs for a Greener Future

Workshop in progress at Surat

The textile industry, a significant energy and water consumer, faces challenges with 34% energy in spinning, 23% in weaving, and 38% in chemical processing. To enhance energy efficiency, BEE initiated the "Energy and Resource Mapping of MSME Clusters in India - Textile Sector" with aim to map energy-intensive MSME textile clusters, estimate energy consumption, analyze technology, and

Participants at the workshop

formulate a roadmap for the sector. Key objectives include energy analysis, technological assessment, benchmarking, roadmap development, and knowledge dissemination. BEE conducted a national-level workshop in Surat, sharing insights on energy-efficient technologies and discussing policy recommendations, attended by textile units nationwide and key stakeholders.

## Overview of The Indian Carbon Market

India ratified the Paris Agreement on Climate Change in 2016 under which its member countries made commitments to keep global average temperatures rise below 2-degree C by the end of century. India in its Nationally Determined Contributions (NDCs) had committed that it will reduce the carbon intensity of its economy by 45 per cent from 2005 level.

The challenge of meeting future NDC goals makes it imperative that market measures are promoted to facilitate gradual decarbonization of the economy. A robust carbon market mechanism will enable active participation of the public and private stakeholders in decarbonization efforts, in all potential sectors.

To facilitate the achievement of India's enhanced NDC targets, the Government intended to develop a robust framework for the Indian Carbon Market (ICM) with an objective to decarbonize the Indian economy by pricing the GHG emission through trading of the carbon credit certificates.

To develop the carbon market, the necessary amendments were proposed in the Energy Conservation Act, 2001 (52 of 2001) in the year 2022. The amended act defines the provision to that empowers the Central Government in consultation with the Bureau of Energy Efficiency to specify the carbon credit trading scheme under the Clause (w) of section 14 of the EC Act.

Under the above provision, the Central Government notified the Carbon Credit Trading Scheme, vide notification S.O. 2825(E), dated 28th June 2023 and amendment notification S.O. 5369(E), dated 19th December 2023.

The Central Government constituted the National Steering Committee for Indian Carbon Market (NSCICM) under the Carbon Credit Trading Scheme (CCTS). NSCICM will oversee the functioning of the ICM. The committee consists of members from different Ministries and relevant organizations under the Chairmanship of Secretary, Ministry of Power and Co-Chairmanship of Secretary, Ministry of Environment, Forest and Climate Change.

The Carbon Credit Trading Scheme (CCTS) defines the two mechanisms namely, compliance mechanism and offset mechanism. Under the compliance mechanism of ICM Framework, the Central Government shall specify the registered

entities as obligated entities. For this purpose, the Bureau of Energy Efficiency will identify sectors and potential for reduction of greenhouse gas emissions and recommend including such sectors in the Indian carbon market. Bureau of Energy Efficiency shall recommend the targets in terms of ton of carbon dioxide equivalent (tCO<sub>2</sub>e) per unit of equivalent product after considering all relevant aspects including available technologies and likely cost of their implementation. The

Ministry of Power, after duly considering the recommendations of Bureau of Energy Efficiency and NSICM, shall recommend the greenhouse gases emission intensity targets to the Ministry of Environment, Forest, and Climate Change for notification under the Environment Protection Act, 1986. The obligated entities shall comply with the prescribed GHG emission reduction norms in each compliance cycle of CCTS. The obligated entities who reduce their GHG emission intensity below the prescribed GHG emission intensity shall be eligible for issuance of Carbon Credit Certificates.

Under the offset mechanism, the non-obligated entities (such as producer of Green Hydrogen and Ammonia, Off-shore wind, renewables with Storage etc.) can register their projects for GHG emission reduction or removal or avoidance for issuance of carbon credit certificates upon fulfilment of the eligibility requirements as per detailed procedure published by Bureau of Energy Efficiency based on recommendations of NSICM.

Dignitaries at the Consultation Workshops

Audience during the workshop

Further, for effective implementation of the programme, Bureau of Energy Efficiency conducted regional stakeholder consultation workshop on the Indian Carbon Market in New Delhi, Mumbai, Bengaluru and Kolkata. The workshops aimed to comprehensively consult with stakeholders about the compliance mechanism, procedural intricacies, minimum requisites,

accreditation procedures for Carbon Verification Agencies, insights into the IT Portal, and an overview of the proposed offset mechanism within the Indian Carbon Market. The consultation attracted over 100 participants in each workshop representing diverse stakeholder groups, including industries, corporations, verification agencies, energy auditors, state designated agencies, and other relevant entities.

The workshops served as a convergence of expertise, drawing together a spectrum of stakeholders. Participants comprised industry leaders, corporate entities, professionals from verification agencies, energy auditors, representatives from state-designated agencies, and a varied array of other key stakeholders. The diversity of perspectives and expertise contributed to rich discussions and multifaceted insights during the workshop.

## बीईई कार्यालय परिसर में स्वच्छता अभियान

स्वच्छता पर बीईई कर्मचारियों ने दिया बड़ा संदेश

स्वच्छ भारत का सपना हमारे राष्ट्रपिता महात्मा गांधी ने देखा था। गांधी जी के स्वच्छ भारत के सपने को साकार करने के लिए “स्वच्छ भारत अभियान” की शुरुआत 2 अक्टूबर 2014 को देश के यशस्वी और दूरदर्शी प्रधानमंत्री श्री नरेंद्र मोदी जी ने भारत मिशन और स्वच्छता अभियान के रूप में की। स्वच्छता के जन अभियान की अगुआई करते हुए प्रधान मंत्री ने जनता को महात्मा गांधी के स्वच्छ और स्वास्थ्यवर्धक वातावरण वाले भारत के निर्माण के सपने को साकार करने के लिए प्रेरित किया। श्री नरेन्द्र मोदी ने स्वयं मंदिर मार्ग पुलिस थाने में स्वच्छता अभियान को शुरू किया। धूल-मिट्टी को साफ़ करने के लिए झाड़ू उठाकर स्वच्छ भारत अभियान को पूरे राष्ट्र के लिए एक जन-आंदोलन का रूप दिया और कहा कि लोगों को न तो स्वयं गंदगी फैलानी चाहिए और न ही किसी और को फैलाने देना चाहिए। उन्होंने “न गंदगी करेंगे, न करने देंगे।” का मंत्र भी दिया। प्रति वर्ष गांधी जयंती के ऐतिहासिक दिन आयोजित भारत सरकार के इस महत्वपूर्ण पहल का मुख्य उद्देश्य भारत में स्वच्छता और स्वच्छता की अद्भुतता को प्रोत्साहित करना है। स्वच्छ भारत अभियान भारत सरकार द्वारा चलाया गया सबसे महत्वपूर्ण स्वच्छता अभियान है।

ऊर्जा दक्षता ब्यूरो में कार्यालय परिसर में 1 अक्टूबर को ‘स्वच्छता ही सेवा’ की थीम पर आधारित स्वच्छता अभियान का आयोजन किया गया। बीईई के महानिदेशक श्री अभय बाकरे के नेतृत्व में सभी अधिकारियों और कर्मचारियों ने अभियान में बढ़चढ़ कर भाग लिया। इस अवसर पर श्री बाकरे ने कहा कि स्वच्छता के लिए किया जा रहा यह प्रयास, स्वच्छ भारत के बेहतर भविष्य की ओर संकेत करता है। ये केवल एक दिन का

अधिकारियों की देखरेख में 'स्वच्छता अभियान'

नहीं बल्कि हर दिन स्वच्छता का स्वभाव बनाएं। बीईई के सचिव मिलिंद देवरे ने उपस्थित लोगों को प्लास्टिक और पॉलीथिन से होने वाली क्षति के बारे में बताते हुए जागरूक किया। बीईई के कर्मचारियों ने इस अभियान में 'क्लीन इंडिया, ग्रीन इंडिया', 'न गंदगी करेंगे, ना करने देंगे' और 'एक कदम स्वच्छता की ओर' जैसे नारे लगाकर एक बड़ा संदेश दिया। साथ ही अपने आस-पास के लोगों को भी स्वच्छता के प्रति जागरूक किया।

सफाई सिर्फ सफाई कर्मचारियों की जिम्मेदारी नहीं है। इसमें देश के प्रत्येक नागरिक का सहयोग देना आवश्यक है क्योंकि सफाई हमारे घर, द्वार, सड़क और कार्यालय के लिए जरूरी है। यह हमारे देश की स्वच्छता की बात है। स्वच्छता किसी देश की छवि को भी दर्शाती है। स्वच्छता ये आभास कराती है कि उस देश के नागरिक कितने सभ्य हैं।

जो परिवर्तन आप दुनिया में देखना चाहते हैं वह सबसे पहले अपने आप में लाएं। स्वच्छता से ना केवल हमारा तन साफ़ रहता है हमारा मन भी साफ़ रहता है यदि हम मूल स्वच्छता अभियान को अपने जीवन का एक हिस्सा बना ले तो वो दिन दूर नहीं जब भारत का सिर्फ एक शहर ही नहीं अपितु संपूर्ण भारत स्वच्छ हो जायेगा, इस प्रकार 'स्वच्छ भारत, स्वस्थ भारत' का सपना भी सच हो जायेगा।

बीईई कर्मचारियों का 'स्वच्छता अभियान'

## बीईई में 'भ्रष्टाचार मुक्त भारत- विकसित भारत' थीम पर आधारित सतर्कता जागरूकता सप्ताह

बीईई में सतर्कता जागरूकता सप्ताह का आयोजन

लौह पुरुष एवं भारत के प्रथम गृहमंत्री सरदार वल्लभ भाई पटेल की जयंती 'राष्ट्रीय एकता दिवस' के उपलक्ष्य में प्रति वर्ष 31 अक्टूबर को राष्ट्रीय एकता दिवस के रूप में मनाया जाता है। इसके अतिरिक्त, ऊर्जा दक्षता ब्यूरो ने 31 अक्टूबर से 6 नवंबर 2022 तक सतर्कता जागरूकता सप्ताह मनाया। सत्यनिष्ठा के साथ भ्रष्टाचार के खिलाफ, ऊर्जा दक्षता ब्यूरो कार्यालय के महानिदेशक श्री अभय बाकरे की अध्यक्षता में, सतर्कता जागरूकता सप्ताह 2023 के उपलक्ष्य में, 'भ्रष्टाचार मुक्त भारत-विकसित भारत' पर सत्य निष्ठा की प्रतिज्ञा भी ली गई। साथ ही सतर्कता जागरूकता सप्ताह के पहले दिन सभी अधिकारियों एवं कर्मचारियों ने 'राष्ट्रीय एकता दिवस' पर शपथ ली कि राष्ट्र की एकता, अखंडता और सुरक्षा को बनाए रखने और देशवासियों के बीच यह संदेश फैलाने के लिए भरसक प्रयत्न करेंगे। साथ ही देश की आंतरिक सुरक्षा सुनिश्चित करने के लिए अपना योगदान करने का भी संकल्प लिया की जीवन के सभी क्षेत्रों में ईमानदारी तथा कानून के नियमों का पालन करेंगे, ना तो रिश्तत लेंगे और ना ही रिश्तत देंगे, सभी कार्य ईमानदारी तथा पारदर्शी रीति से करेंगे, जनहित में कार्य करेंगे, अपने निजी आचरण में ईमानदारी दिखाकर उदाहरण प्रस्तुत करेंगे और भ्रष्टाचार की किसी भी घटना की रिपोर्ट उचित एजेंसी को देंगे और हर प्रकार से ऊर्जा दक्षता ब्यूरो कार्यालय और उसकी अधीन सभी प्रकार की योजनाओं के लिए एक भ्रष्टाचार-मुक्त भविष्य की दिशा में सहयोग करने का प्रण लिया। इस अवसर पर श्री बाकरे ने स्वतंत्र भारत के लिए राष्ट्रीय एकता के मुख्य वास्तुकार के रूप में सरदार वल्लभभाई पटेल की भूमिका और उपलब्धियों की सराहना की। उन्होंने आगे कहा कि सरदार वल्लभभाई पटेल की दूरदर्शिता और अभियानों से भारत का एकीकरण संभव हुआ। उन्होंने सभी से सतर्क रहने और राष्ट्र

बीईई महानिदेशनक श्री अभय बाकरे ने दिलाई सत्य-निष्ठा की प्रतिज्ञा

के साथ-साथ ऊर्जा दक्षता ब्यूरो की समग्र प्रगति, समृद्धि और विकास के लिए आंतरिक सुरक्षा सुनिश्चित करने के लिए समर्पित योगदान देने का आग्रह किया। श्री बाकरे ने आगे कहा कि बीईई में प्रति कार्मिक ईमानदारी और सत्यनिष्ठा के उच्चतम मानकों को बनाए रखने और जीवन के सभी क्षेत्रों में ईमानदारी और वैधानिक पालन के लिए प्रतिबद्ध है।

सतर्कता जागरुकता सप्ताह का उद्देश्य नागरिकों में सत्यनिष्ठा और जवाबदेही की भावना बढ़ाना है तथा केन्द्रीय सतर्कता आयोग की जन भागीदारी से शासन और जन प्रशासन में नैतिकता और पारदर्शिता को प्रोत्साहित करना है। सतर्कता जागरुकता सप्ताह 2023 की थीम, 'से नो टू करप्शन, कमिट टू द नेशन' है, जो भ्रष्टाचार के खिलाफ सकारात्मक एवं सशक्त सामाजिक संजाग की भावना को प्रोत्साहित करती है। सतर्कता जागरुकता सप्ताह के दौरान विभिन्न कार्यक्रम और गतिविधियों के माध्यम से समाज को भ्रष्टाचार के खिलाफ सशक्त बनाने का प्रयास किया गया। साथ ही, सतर्कता प्रशिक्षण और शिक्षा कार्यक्रम भी आयोजित किए गए हैं ताकि लोग अपनी सक्रिय भूमिका निभा सकें और समाज में व्याप्त भ्रष्टाचार को समाप्त कर सकें।

भारत को विकसित देश बनाने के लिए भ्रष्टाचार मुक्त भारत सम्भव है। जब चरित्रवान तथा सर्वस्व त्याग और देश सेवा की भावना से भरे लोग राजनीति, प्रशासन, व्यावसाय और शिक्षा में आएंगे और लोक चेतना के साथ जीवन को जोड़ेंगे तो निश्चय ही हमारा भारत न केवल एक विकसित राष्ट्र बनेगा अपितु पुनः विश्व-गुरु भी बनेगा। तभी हमारे आदरणीय प्रधानमंत्री श्री नरेंद्र मोदी जी का यह कहना कि "न खाऊँगा, न खाने दूँगा।" सार्थक प्रतीत होता दिखेगा।

**“देश के विकास हेतु जागरुकता को बढ़ाना है,  
सबको मिलकर भ्रष्टाचार मुक्त भारत बनाना है।”**

## Validation & adoption workshop State Energy Efficiency Action Plan (SEEAP)

### Odisha

A validation workshop was held on October 17th, 2023 at Bhubaneswar to discuss and validate the State Energy Efficiency Action plan (SEEAP) of Odisha. Attendees included key officials, from the relevant state government departments and agencies & stakeholders Led by Chief Secretary, Odisha, Jt. Secretary MNRE, Addl. Chief Secretary, Energy Department, Odisha, MD, Gridco Ltd, the workshop reviewed and approved the action plans. This workshop was a crucial step towards finalizing Odisha's action plan, which will guide state Government departments and agencies in adopting sustainable efficiency strategies across key economic sectors in the state.

A session during Launch of SEEAP Report in Bhubaneswar

### Andhra Pradesh

A validation workshop was held at Vijayawada on 2nd November, 2023 to discuss and validate the State Energy Efficiency Action Plan (SEEAP) of Andhra Pradesh. The workshop was led by Mr. Vijayanand, IAS, Special Chief Secretary, Energy Department and attended by senior officials from relevant departments and the state designated agency. The State-specific action plan on energy efficiency has been developed by BEE in collaboration state designated agencies and all relevant stakeholders Departments of Andhra Pradesh Govt. Mr. Vijayanand emphasized the need to finalize the sector-wise targets, including short and long-term plans, in consultation with the departments concerned. He added Cost reduction, advancement of technology, customer/stakeholders pull, sustainability and new investment opportunities were the major energy efficiency drivers.

Launching of SEEAP Report in Andhra Pradesh

## Bihar

A validation workshop on the State Energy Efficiency Action Plan (SEEAP) for the State of Bihar was organized under the chairmanship of Shri Mahendra Kumar, IAS, Managing Director, Bihar Renewable Energy Development Agency on 3rd November, 2023 at Patna. The action plan aims to guide government departments and agencies in adopting sustainable and long-term energy efficiency strategies across key economic sectors in the state.

Inauguration and Launch of SEEAP Report in Bihar

## Punjab

The Punjab Energy Development Agency (PEDA) organized a successful validation workshop on the State Energy Efficiency Action Plan (SEEAP) at Chandigarh on 21st November, 2023 under the chairmanship of Sh. Aman Arora, Hon'ble Minister (Energy), Govt. Of Punjab. The workshop brought together officials from different departments to review and enhance the action plan. Emphasizing on the need of fast-tracking implementation of the Action Plan and review the progress quarterly, Hon'ble Minister (Energy) asked all the departments to come forward to equip their office buildings with solar panels to decarbonize the power sector, which will help in reducing their power consumption charges to 25% to 30%.

Secretary BEE with Sh. Aman Arora, Hon'ble Minister (Energy), Govt. Of Punjab Launches the SEEAP Report

## Rajasthan

A validation workshop was held at Jaipur on 29th November, 2023 to discuss and validate the State Energy Efficiency Action Plan (SEEAP) of Rajasthan. The workshop was organized under the Chairmanship of Sh. Bhaskar Sawant, IAS, Principal Secretary (Energy), Sh. Ashutosh Pednekar, IAS, Chairman, RRECL & Sh. Anil Dhaka, IRS, MD, RRECL and brought together officials from different departments to review and enhance the action plan. The action plan highlights strategies for promoting energy efficiency and encouraging behavioral changes towards energy efficiency.

Officials during the SEEAP Workshop

## Manipur

A validation workshop was held on December 6th, 2023 at Imphal to discuss and validate the State Energy Efficiency Action plan (SEEAP) of Manipur. Attendees included key officials, from the relevant state government departments and agencies & stakeholders. The workshop was organized under the Chairmanship of Dr. Shailesh Kumar Chourasia, IAS, Secretary Power, along with H. Shantikumar, Managing Director of MPSDCL, and Rabi Singh, Executive Director of MPSDCL (head of SDA Manipur) and brought together officials from different departments to review and enhance the action plan.

Group Photo of Key Officials and Stake Holders at SEEAP workshop

## Karnataka

A validation workshop was held at Bangalore on 27th December, 2023 to discuss and validate the State Energy Efficiency Action Plan (SEEAP) of Karnataka. The workshop was organized under the Chairmanship of Shri Gaurav Gupta, IAS, Additional Chief Secretary, Shri. Mahantesh Bilagi, IAS, Managing Director, BESCOM and Shri K.P. Rudrappaiah, Managing Director, KREDL and brought together officials from different departments to review and enhance the action plan. The action plan highlights strategies for promoting energy efficiency and encouraging behavioral changes towards energy efficiency.

## Workshop on Voluntary Action Plan on Doubling the Rate of Energy Efficiency Improvement by 2030

Shri Abhay Bakre, DG (BEE) and members during the workshop

A high-level workshop focusing on the 'Voluntary Action Plan on Doubling the Rate of Energy Efficiency Improvement by 2030' took place in Delhi. The event witnessed the presence of Shri Abhay Bakre, Director General of BEE, alongside distinguished members from SE for ALL, AEEE, and IEA. The gathering emphasized the pivotal role of energy efficiency in both national and global decarbonization strategies. Participants engaged in in-depth discussions aimed at advancing the progress of energy efficiency on a global scale and identified impactful opportunities specific to India. Knowledge sharing emerged as a key theme throughout the session. Additionally, a significant report titled 'Promoting Energy Efficient Lifestyles and Decision-Making' was unveiled. This report offers insights from various G20 nations, highlighting behavioural and emotion-driven incentives that motivate individuals and organizations to adopt energy-efficient practices. The case studies presented in the compendium shed light on successful strategies and approaches that encourage energy-saving behaviours and decision-making processes globally.

Release of Compendium of Case Studies from G 20 countries

## IEA and BEE Host Policy Training Week on Energy Efficiency

Shri Abhay Bakre, DG (BEE) delivering the key note address

The "India Energy Efficiency in Emerging Economies (E4) Policy Training Week" is organized by the International Energy Agency (IEA) in collaboration with the Bureau of Energy Efficiency (BEE) and the Ministry of Power. The E4 Training week comprises five parallel courses covering energy efficiency in buildings, appliances and equipment, industry, transport, and indicators and evaluation. Scheduled from 11th to 14th December 2023 in New Delhi, the event was inaugurated by Shri Abhay Bakre, Director-General of BEE, alongside Shri Vishal Kapoor, CEO of EESL India, Ms. Melanie Slade from IEA and Shri Arijit Sengupta from BEE. Aimed at enhancing the capacity of policymakers from emerging economies, the training seeks to equip them with knowledge and skills to implement effective Energy Efficiency initiatives. The opening plenary featured discussions by key policymakers focusing on India's strategies for accelerating Energy Efficiency (EE) improvements, reflections on COP28 outcomes, and future planning.

Meeting in progress

Shri Saurabh Diddi Director (BEE) addressing the audience

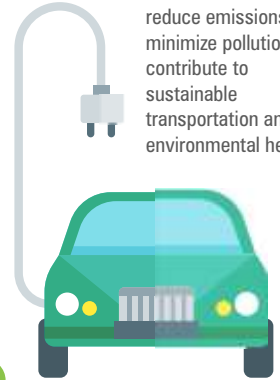

### Energy Saving

Energy saving is vital for energy conservation, reducing overall consumption and promoting sustainability.

### Electric Vehicles

Electric vehicles reduce emissions, minimize pollution, and contribute to sustainable transportation and environmental health.

### Renewal Energy

Renewable energy conserves by tapping into natural sources, cutting emissions, and ensuring sustainable power for the future.

### Plant more green tree

Planting trees strategically cools naturally, blocks sunlight, and reduces AC use, conserving energy efficiently.

### Energy Efficiency in Industrial Sector

Enhance energy efficiency in the sector through tech upgrades, demand-side management, renewables, audits, policies, awareness, and innovation.

### Recycle

Recycling conserves energy by reducing the need for raw material extraction, processing, and manufacturing.

## **BUREAU OF ENERGY EFFICIENCY (BEE)**
